

Duct Systems

- ◆ Flexible Duct - R-Value 6.0
- ◆ Manufactured with a durable black polyethylene jacket
- ◆ Constructed with a double lamination of tough polyester which encapsulates a steel wire helix which forms the air-tight inner core
- ◆ Double layer core wrapped in multiple thicknesses of fiberglass insulation
- ◆ Smooth inner core

- ◆ Air duct board is made from strong, resilient glass fibers bonded with thermosetting resin, providing an R-Value of 3.6
- ◆ Resistant to dust and dirt
- ◆ Will not support microbial growth
- ◆ Cleanability. The reinforced coating airstream surface may be cleaned with industry-recognized dry methods
- ◆ Quiet operation
- ◆ Better temperature control
